

PCI COMPLIANCE SOLUTIONS

Reduce the burden of managing PCI compliance

Windstream Enterprise PCI Compliance Solutions provide financial breach protection and help retailers cost-effectively achieve continuous PCI compliance to protect their customers' financial data and their brand reputation.

Full suite of compliance solutions

Windstream Enterprise can help retailers achieve and maintain Payment Card Industry Data Security Standard (PCI DSS) compliance. We'll help identify gaps for remediation, provide added network security and provide ongoing business support.

PCI Protect®

Financial data breach protection and a self-service PCI portal with a set of tools to help retailers meet PCI requirements.

Security policy templates

Web-based training

Self-service ASV scans

Self-assessment questionnaire (SAQ)

Record-keeping for auditor reports

Financial data breach protection up to \$100K per location

Available managed inspection firewall with 24/7 monitoring

PCI Assist® Plus

Expert assistance to help customers maximize the portal and keep aligned with PCI compliance requirements on a continuous basis.

Portal usage assistance, employee training and administration of security policy

Quarterly scan assistance

Annual SAQ assistance

Vulnerability remediation assistance

PCI Certify®

Professional Services to validate the SAQ or deliver a full-service PCI audit which is required to affirm PCI compliance.

PCI Report on Compliance (ROC) by a Qualified Security Assessor (QSA)

SAQ validation
