Protect against DDoS attacks

DDoS attacks are constant, costly, debilitating and an increasing pervasive threat. The Windstream Enterprise DDoS Mitigation Service offers a comprehensive, cost-effective solution.

THE PROBLEM

DDoS attacks disrupt business

An Attack directs large amounts of traffic toward a network.

1. An ATTACK direct

2. Large amounts of traffic toward a network, system or Internet-based application service to inflict damage and business losses.

3. The network is disrupted, part or completely.

The potential result is LOSS OF DATA, critical assets and reputation.
