

BUSINESS CONTINUITY

Peace-of-mind for network and application uptime

Reliable solutions to keep your business running smoothly around the clock

Don't lose sleep over potential downtime

Windstream Enterprise has a full suite of affordable, resilient Business Continuity Solutions that work 24/7.

Attain redundant active/active failover and traffic optimization

with dual access SD-WAN. Gain full application visibility and control from a single console in the WE Connect portal, while cost-effectively increasing bandwidth and network performance.

Diversify connectivity and be prepared for any disaster. Mix-and-match fiber, fixed wireless, 4G and broadband. Windstream Enterprise has the broadest range of options to fit your budget and bandwidth needs.

Fly above fiber cuts with fixed wireless, as a high-bandwidth replacement contingency plan.

WE stand by our connectivity with a 99.999% end-to-end availability SLA for SD-WAN—100% if you combine it with Diverse Connect.

Stay connected to customers and employees with OfficeSuite UC®.

Enable collaboration anywhere, on any device, including voice calls, chat, video conferencing and SMS text messaging via a secure, cloud-based system.

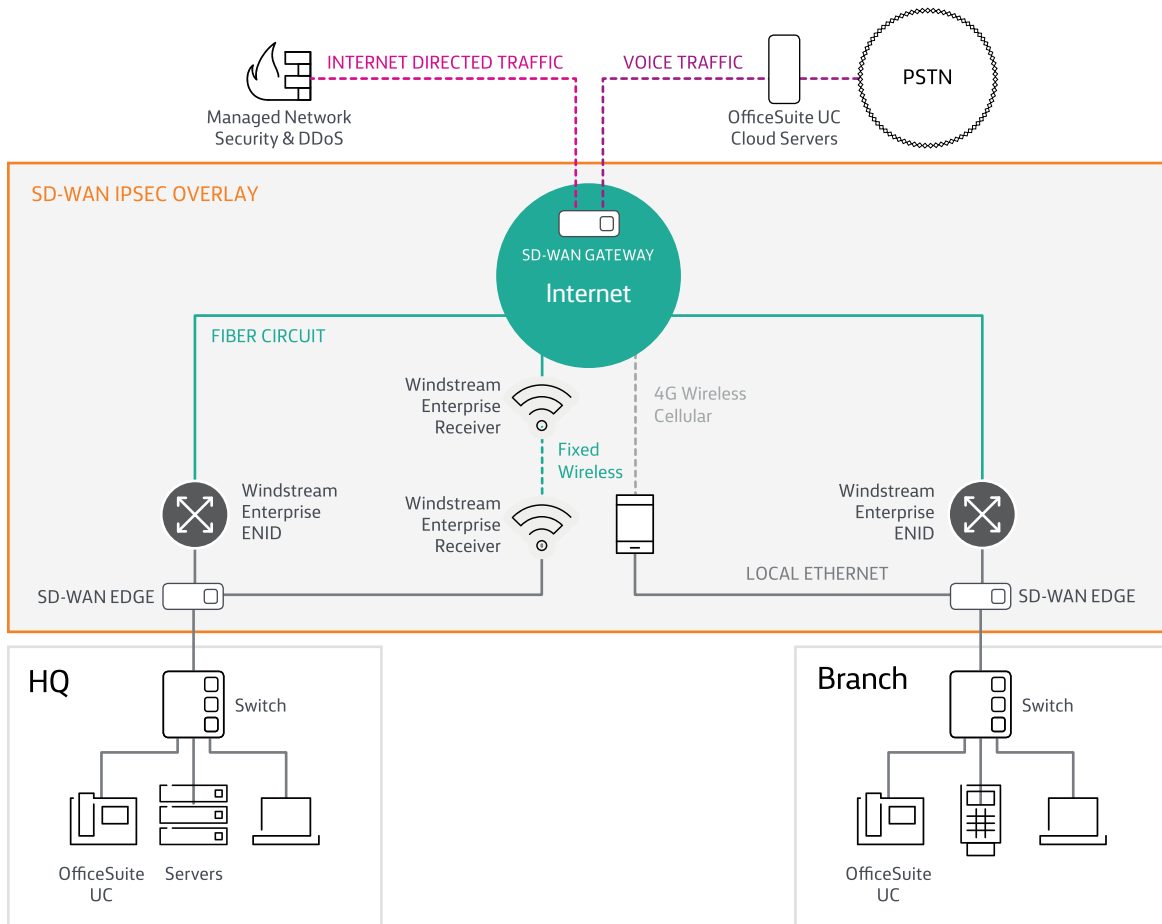

Proactively protect your network from a DDoS attack and prevent costly outages. DDoS Mitigation service is fully managed to monitor, detect, validate and mitigate attacks—including third-party networks—before damage occurs.

Add an extra layer of network fortification with cloud- or premises-based Managed Network Security that unifies firewall, content filtering, intrusion prevention and application control into one robust Unified Threat Management (UTM) and Security Information and Event Management (SIEM) solution.

Add guaranteed performance to your cloud applications with Cloud Connect.

Windstream Enterprise will design a solution to meet your needs. Below is one example of SD-WAN with dual access for the highest level of network resiliency; OfficeSuite UC, DDoS Mitigation and Managed Network service enable comprehensive business continuity.

WE Connect portal

Manage your services and interact with us anytime, anywhere, with any device

Administrators and employees can easily make changes to the system and their individual accounts—as appropriate—from a single, intuitive interface. Utilize the WE Connect portal to:

Manage and configure all services from a single pane of glass

Make real-time changes based on real-time performance

Implement immediate call routing and voicemail changes

Set business policies, prioritize applications, and customize naming and tagging of devices and destinations to simplify

Customize dashboards to allow employees to self-manage features

Make changes, provision services, add users and order phones and devices

Use the WE Connect mobile app for convenient access from smartphones or tablets

About Windstream Enterprise

Windstream Enterprise collaborates with businesses across the U.S. to drive digital transformation by delivering solutions that solve today's most complex networking and communication challenges.
