

# Broadband Access

1,400+ Service Areas with 10Mbps to 100Mbps Services

## Low-bandwidth IP networking solutions for end users.

Now, more than ever, service providers are searching for economical, low-bandwidth IP networking solutions that meet the needs of their end users. Broadband Access offers our customers simple, highly-compatible, and cost-effective Internet access in our incumbent local exchanges.

Using our Customer Portal Tool (CPT), customers can easily qualify locations, as well as quote and order Broadband Access services for 10Mbps up to 100Mbps within our 1,400+ local exchanges across the country.

### Additional Broadband Access details

For additional details, including a full demonstration on how to quote and order Broadband access in CPT, contact your assigned Account Representative or contact us at 866.375.6040.
