

# Choosing the right Security Solution for you

Cyber threats are more numerous and sophisticated than ever—Windstream Enterprise empowers you to keep pace with a continuously managed security and compliance infrastructure. Supported by an expert team and 24/7 security centers, our solutions monitor and manage ongoing risk and help alleviate the tactical burdens related to security and compliance requirements.

Features	MNS Cloud	MNS CPE	Email Security	Web Security	DDoS Mitigation	DDoS Assurance
Available in all markets	✓	✓	✓	✓	✓	✓
Cloud-based: no hardware required	✓		✓	✓	✓	✓
Compatible with 3rd party internet	No; must have WE MPLS, SD-WAN or DyIP	✓ Yes; one location must be with WE	✓	✓	✓	✓
Protection level	Protection for multiple locations	Protection per location	Protection per user	Protection per user	Unlimited protection per circuit	Includes 1 mitigation per month per circuit
Underlying technology	Fortinet	Fortinet	Proofpoint	Webroot	Arbor Networks	Arbor Networks
Underlying provider	WE owned, operated and supported	WE owned, operated and supported	+ Proofpoint resell + WE operated and supported	+ Webroot resell + WE operated and supported	WE owned, operated and supported	WE owned, operated and supported
<b>Detection and Response</b>						
DDoS: Provides attack detection and rapid response options					✓	✓
SIEM: Provides detection and notification for threats against networks and servers	Available with MNS Premium	Available with MNS Premium				
<b>Controls</b>						
Self-service management	Manage web filtering	Manage web filtering	Full account administration	Full account administration		

## COMPARISON GUIDE

Features	MNS Cloud	MNS CPE	Email Security	Web Security	DDoS Mitigation	DDoS Assurance
<b>Prevention</b>						
Firewall	✓	✓				
Application control	✓	✓				
Intrusion Prevention (IPS): Detects and automatically blocks network intrusion attempts	Available with MNS Advanced or Premium	Available with MNS Advanced or Premium				
VPN/Secure remote access	✓	✓				
Web filtering	Available with MNS Advanced or Premium	Available with MNS Advanced or Premium		✓		
Anti-virus	Available upon request with ICB	Available upon request with ICB	✓	✓		
Spam filtering			✓			
<b>Log Data</b>						
Logs	Real-time in WE Connect portal	Real-time in WE Connect portal			Real-time in DDoS portal	Real-time in DDoS portal
Reporting	✓	✓	✓	✓	✓	✓
Retention	Available with SIEM/MNS Premium: + Includes 1 year for firewall + Option up to 7 years for firewall and servers	Available with SIEM/MNS Premium: + Includes 1 year for firewall + Option up to 7 years for firewall and servers				
<b>Redundancy</b>						
High Availability (HA)/Back-up	Geo-redundant firewalls	Optional HA; requires 2 Ethernet switches	Access to emergency inbox with up to 30 days of email		✓	✓
<b>Compliance Support</b>						
Service certifications	PCI DSS Level 1 compliant	PCI DSS Level 1 compliant				
Helps support the following regulations	PCI, HIPAA, FERPA	PCI, HIPAA, FERPA		FERPA	FFIEC	FFIEC
<b>Customer Integration</b>						
Sync active directory	✓	✓	✓			
Real-time log stream to customer	✓	✓
