

SECURE REMOTE ACCESS

Private connectivity for remote workers

To assist our clients with remote work enablement, Windstream Enterprise is offering our Secure Remote Access services free for 90 days to all existing MPLS and SD-WAN customers who order by September 30, 2020.

Secure Remote Access

Providing secure access to company resources is essential in supporting business continuity and a remote work environment.

SRA helps your organization:

Ensure an encrypted connection over the Internet

Control access to internal applications, systems and resources

Define which of your network and corporate resources are accessible to remote workers

Eligible services:

Secure Remote Access (SRA)

Free trial qualifications:

Current MPLS and SD-WAN customers may order SRA at no charge and may cancel at any time for 90 days. After the initial trial period, SRA may continue to be used at standard rates.

Sold in blocks of 5 tunnels—minimum of 1 block and no maximum limit

SRA tunnels may be shared across multiple end users

End users download VPN clients to connect securely to your corporate network

End users may connect from anywhere with Internet access

Contact your Windstream Enterprise account representative for details.
