

# Flexible solutions for remote workers

Many businesses have had to quickly shift and adapt to a remote worker environment. Windstream Enterprise makes it easy to connect and collaborate face-to-face with anyone, anywhere.

Maintain business continuity

Collaborate with others

Boost your customer experience

Retain your privacy

## Use video and audio solutions to collaborate with ease

Host and join video, audio and web conferences with up to 500 participants from any device with OfficeSuite HD Meeting® via a secure, cloud-based platform.

## Stay connected to your employees and clients

Enable voice calls, chat and SMS text messaging without exposing your personal phone number with OfficeSuite UC®.

## Obtain full visibility and control of your network from a single pane of glass

Manage and optimize business and application routing policies from anywhere with SD-WAN—all while increasing network performance.

## Securely access company systems and resources

Connect your remote employees to network assets, leveraging an encrypted connection over the Internet with Secure Remote Access.

## Add an extra layer of network fortification

Unify firewall and content filtering with cloud-based Managed Network Security.

## Enhance your digital experience

Get immediate access to all the information about your services in one place, along with the essential functions that help you manage and optimize your network. And when you need it, support is always a click away in our WE Connect portal.
