

OFFICESUITE UC WITH SD-WAN

UCaaS and SD-WAN combine for superior reliability and quality of service

Integrated 100% cloud-based UC and SD-WAN solution offers premier performance and availability without the premier-level price. It's the ideal integrated voice, collaboration and conferencing solution for businesses where quality and reliability are essential to organizational innovation and success.

OfficeSuite UC: Easy to deploy; even easier to use

OfficeSuite UC® empowers both administrators and end users with comprehensive tools to instantly make changes, provision services, add users and order phones via any device. It's so easy, users can self-manage features, freeing IT to focus on strategic innovation and growth.

Maximum reliability, maximum productivity

Businesses know when it comes to communications, failure is not an option. OfficeSuite UC with SD-WAN delivers voice, video and collaboration services designed for maximum uptime and quality of service. The results are flawless communications that maximize employee productivity and delivers the customer experience needed to win in fast-paced business environments.

More bandwidth for the buck

Windstream Enterprise's fully-managed SD-WAN Concierge™ has a similar impact across all your cloud-based apps. Our solution lets you supplement existing connections with

cost-effective, highly-available broadband, giving you more bandwidth to meet growing demands at a significantly lower cost. SD-WAN also offers visibility and control to prioritize critical apps to take the power of your bandwidth even further.

Only from Windstream Enterprise

OfficeSuite UC with SD-WAN is the high-performance UC solution with fully-managed SD-WAN built right in. It combines a complete, highly secure, award-winning communications, mobility and collaboration solution with the active/active connectivity and dynamic routing of SD-WAN. This provides the highest level of quality, availability and continuity for UCaaS and all your cloud-based apps.
