

Adaptive, resilient communications for e-learning environments

Connecting educators and students in a virtual classroom through video and audio solutions.

Reliable, scalable education solutions

Agile, responsive transitions between instructional settings

Support learning continuity

Safe, private and secure

Our video and audio solutions allow you to connect in real time, or on demand, via text, call or full-featured web conference; enabling educators and administrators to be accessible—without sharing their personal contact information.

Turn-key platform runs on Windstream Enterprise or any underlying carrier's network.

Collaborate with secure video and audio solutions

Host and join video, audio and web conferences from any device with Virtual Classroom, powered by HD Meeting®. Our secure, cloud-based platform helps educators maintain the familiar cadence of learning—in any setting.

Create familiar learning environments from anywhere with flexible, education-ready features

Each instructor has their own Virtual Classroom for simultaneous instruction. Engage students with familiar tools and methods such as hand raising, seamless small group breakouts, screen sharing from any device, on-screen annotation, whiteboarding, classroom polling and more.

Maintain critical connectivity between students, parents and staff

Enable voice calls, chat, SMS text messaging, forward numbers and reroute calls in real time with OfficeSuite UC®. Assigned softphones allow educators and administrators to make calls via a smartphone or desktop app without sharing their personal phone number.

Securely connect and collaborate at any time, from any location with any device to enhance student engagement.

e-Learning, powered by OfficeSuite UC

A 100% cloud-based phone, mobility and unified communications system gives your district flexibility and resilience, while maintaining strong security controls. Enable your staff to access phone features such as calls, chat, video conferencing and SMS text messaging from anywhere, on any device via a secure, fully hosted system.

Helps educators and administrators remain accessible without sharing their personal mobile number

Provides full-feature functionality via PC and iOS or Android mobile devices

Enables full customization and reduces reliance on help desk support with intuitive, self-service WE Connect portal for both administrators and users

Leverages a proprietary design to encrypt meetings and messages and secure everything in the cloud

Offers OfficeSuite UC SOC 2 Type 2 Report for compliance requirements

Integrates with popular 3rd party applications via our standards-based API

Free trials and flexible education-specific bundles available for a limited time. Please contact your account representative or visit windstreamenterprise.com/offers to learn more.

Virtual Classroom, powered by OfficeSuite HD Meeting

Host and join HD video, audio and web conferences from any phone, computer or mobile device to easily connect face-to-face with anyone, anywhere with built in security. Encryption and privacy settings protect identities and prevent intrusions in virtual classroom environments.

Provides full-feature licenses for educators and administrators—each receives their own private, virtual classroom, so sessions can be conducted simultaneously with up to 500 participants per session

Engages students with familiar tools and methods, including screen share from classroom interactive whiteboards, real-time polling questions, hand raising, on-screen annotation tools and more

Builds on your current IT environment by integrating with many 3rd party applications and is compatible with Chromebooks

Expands learning opportunities and optimizes resources by offering specialized classes virtually to students at multiple schools

Facilitates small group breakouts and seamlessly reconvenes the class

Promotes accessibility and real-time collaboration with tools such as PC or mobile screen sharing and mobile access via iOS and Android

Enhances security with meeting passwords, attendee lock out and AES 256-bit session encryption—all hosted in our secure cloud environment

Drives participation, resource optimization and flexibility with virtual staff meetings, trainings, advising sessions and parent-teacher conferences—accessible from any device

About Windstream Enterprise

Windstream Enterprise collaborates with businesses across the U.S. to drive digital transformation by delivering solutions that solve today's most complex networking and communication challenges.
