

DDOS

Protect your network for free

Purchase Windstream Enterprise Internet service and receive a free year of Distributed Denial of Service (DDoS) Mitigation Service to keep your network protected and secure.

Internet

Keep working, not waiting with speeds of up to 5 Gbps. Move large data quickly with the same speed for uploads and downloads.

DDoS Mitigation Service

Gain proactive protection against DDoS attacks on your network, with comprehensive monitoring and rapid response to eliminate costly downtime and threats.

Sign up for 3 years of Internet service at 300 Mbps or higher and get a year of DDoS Mitigation Service for free.*

Talk with your Windstream Enterprise representative for full details on how to qualify.

*Minimum 3-year term. Applicable access charges, taxes, fees and surcharges are excluded.
