

**FAX-TO-EMAIL**

# Leverage the advantage of mobility to send and receive faxes online

Easily send and receive faxes online to and from any device without the need for a fax machine, ink or paper.

## Benefits

Increase workplace productivity by no longer needing the office to pick up or send a fax

Reduce the cost of sending long distance faxes

Leverage existing network investments

Eliminate the costs of owning and maintaining fax machines

Save money and go green with faxes via email

Store and transfer important fax documents online for convenient access

## Features

Toll-free numbers available

An online interface that allows for easy storage and retrieval of faxes

30-day online archive with the ability to download and save faxes

Access/send/receive faxes via any mobile device

Forward fax documents to co-workers/vendors/customers via email

A dedicated mailbox for faxes

Automatic retries for failed sent faxes

Supports PDF and Microsoft Office Word, Excel and PowerPoint file formats

24/7 U.S.-based technical support

No set-up fee or contract required

Flexible plan options based on the number of faxes sent and received per month

PLAN	MRC*
