

Why Contact Center Services? Why Windstream Enterprise?

OfficeSuite UC[®] Contact Center Services,
an omnichannel solution

of customers say their standard for customer experience has never been higher¹

Provide a best-in-class customer experience

How your calls, web-chats and text messages are managed and answered determines how your customers experience your business.

Deliver top-notch service to every customer

Centralize call, text and chat sessions from your website to service more customers more efficiently with Windstream Enterprise's omnichannel, cloud-based contact center solution, OfficeSuite UC Contact Center Services.

OfficeSuite UC Contact Center is designed to improve call, text and chat management by combining them into the same integrated contact center. You no longer need to have multiple solutions to meet customers via phone or the web. By utilizing call queues or virtual waiting rooms for different departments, you can ensure callers speak to the right person every time. And, when callers are waiting on hold, they can be entertained by music or pre-recorded announcements defined by your business.

Most customers prefer web-based chat or text messaging as an alternative to calling. With OfficeSuite UC Contact Center Services, voice calls, chat sessions and text messages can be handled with omnichannel functionality, delivering greater flexibility.

Through advanced skill-based routing, call, text and chat sessions can be routed to top agents and queues can be prioritized over one another for maximum efficiency.

By fully integrating with our award-winning unified communications solution, OfficeSuite UC, your employees get access to the features they need to deliver efficient and professional service, while your customers experience better communication and faster response times.

Safeguard your mission-critical communications

Database security

No information or data is stored on vulnerable local servers. Our databases are stored on secure servers in our cloud infrastructure—all protected by industry-standard firewalls, access control lists, authentication and authorization.

Communication security

Calls, chats, messages and meetings using the Internet are encrypted from the handset into our secure network.

Information protection

Unlike other providers, we own the code and utilize unique technology instead of SIP or open source to help you meet SOC2 and HIPAA compliance requirements. OfficeSuite UC delivers a proprietary design to encrypt meetings and messages and secure everything in the cloud.

Cloud-enabled connectivity, communications and security—guaranteed.

Windstream Enterprise drives business transformation through the convergence of our proprietary software solutions and cloud-optimized network to unlock our clients' revenue and profitability potential. Our managed services streamline operations, enhance productivity and elevate the experience of our clients and their end users while securing their critical data and brand reputation. Analysts certify Windstream Enterprise as a market leader for our product innovation, and clients rely on our unrivaled service guarantees and best-in-class management portal. Businesses trust Windstream Enterprise as their single-source for a high-performance network and award-winning suite of connectivity, collaboration and security solutions—delivered by a team of technology experts whose success is directly tied to our clients' complete satisfaction.
