Cloud-Managed Switches from Meraki

Security, performance and manageability

The Cloud-Managed Switches from Meraki deliver outstanding security, performance and manageability. Secure, simple and scalable, Meraki Cloud-Managed Switches are the right choice for threat conscious businesses of all sizes.

Cloud-Managed Switches

Streamline deployment and management of your network without compromising on power or flexibility. Cloud-Managed Switches provide deeper visibility and control across your entire network, helping you meet business demands and maximize resources.

Centralized cloud management

The cloud management architecture provides powerful and intuitive centralized management, while eliminating the cost and complexity of traditional on-site wireless controllers. There's no need to train additional staff to monitor or manage the remote networks, as the cloud-management dashboard allows for centralized management of all locations.

WE Connect highlights

Dashboards for ease of management

Multiple dashboards offer a view of key statistics for all switches in your environment. Click to drill down on a particular switch to see details on specific devices in a category. There is no need to change screens or hunt through the UI to find information.

Highlights

Centralized security and access management from WE Connect

Optimal for converged network environments; enabling voice, data, and wireless traffic to be delivered across a single network

Up to 48 ports in a compact 1 RU Form factor

How do cloud-managed switches deliver on your needs?

Rapidly deploy and manage

Easily deploy and manage switches across all locations without additional on-site support

Drastically reduce time-to-resolution

Identify and resolve issues quickly and efficiently to maintain network performance

Centralized management

Add or make changes to switches at any location across your organization from anywhere

Switch models

Series	MS120-8	MS120	MS225
			
Deployment type	Compact	Small Branch & Office	Branch & Small Campus
Interfaces	8 x 1G RJ45	24 / 48 x 1G RJ45	24 / 48 x 1G RJ45 ports
Uplinks	2 x 1G SFP	4 x 1G SFP	4 x 10G SFP+ ports
PoE capabilities	67W (LP model) 124W (FP model) PoE/PoE+ support	370W (P, LP models) 740W (FP model) PoE/PoE+ support	370W (P, LP models) 740W (FP models) PoE/PoE+ support
Power configuration	External PSU (non-PoE, LP model) Internal PSU (FP model)	Internal	Internal Optional RPS
Stacking capabilities	Virtual only	Virtual only	Stacks with MS210 80 Gbps physical + virtual
Routing capabilities	DHCP relay	DHCP relay	Static only DHCP relay
Models	MS120-8-HW MS120-8LP-HW MS120-8FP-HW	MS120-24-HW MS120-24P-HW MS120-48-HW MS120-48LP-HW MS120-48FP-HW	MS225-24-HW MS225-24P-HW MS225-48-HW MS225-48LP-HW MS225-48FP-HW

Cloud-enabled connectivity, communications and security—guaranteed.

Windstream Enterprise drives business transformation through the convergence of our proprietary software solutions and cloud-optimized network to unlock our clients' revenue and profitability potential. Our managed services streamline operations, enhance productivity and elevate the experience of our clients and their end users while securing their critical data and brand reputation. Analysts certify Windstream Enterprise as a market leader for our product innovation, and clients rely on our unrivaled service guarantees and best-in-class management portal. Businesses trust Windstream Enterprise as their single-source for a high-performance network and award-winning suite of connectivity, collaboration and security solutions—delivered by a team of technology experts whose success is directly tied to our clients' complete satisfaction.
