

You keep things fresh and craveable for your customers...

We help the orders coming digitally by keeping your tech managed + secured.

In today's ever-changing digital environment, you need a stable, secure and plug-in-play technology infrastructure to drive traffic, sales and customer satisfaction. Windstream Enterprise offers promotional pricing for its comprehensive managed security and digital foundation bundle, including PCI compliance.

### Solution Highlights

#### Managed Network Security

We configure, manage and monitor your network around the clock to keep you protected.

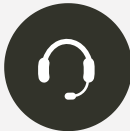

#### Secure Digital Foundation

Maximize your ROI and capture digital dollars with a plug-in-play standardized IT foundation.

#### PCI Compliance Simplified

The tools and support to validate PCI compliance, as well as reduce the risk of a data breach.

#### 24 / 7 x 365 Support

U.S.-based technical IT support with 97% of issues resolved on first call.
